## About Me

I am a creative user-centric, front-end developer with a background in graphic design. I love using CSS and ReactJS to create responsive web pages and apps. I enjoy injecting positive energy into any team I have the opportunity to work with and I thrive on learning from people with different skill sets. I am keen to become a better problem solver and I am constantly striving to improve my programming skills.

## Education

**Aug 2019 - Feb 2020**

**Software Engineering Immersive**  
**General Assembly** - Sydney, Australia

**Sep 2018 - Nov 2018**

**Front End Web Development**  
**General Assembly** - Sydney, Australia

**2008 - 2009**

**Small Business Management**  
**South Western College, TAFE** - Sydney, Australia

**2003 - 2004**

**Diploma In Graphic Design**  
**St George Design College, TAFE** - Sydney, Australia

## Projects

**3 Apr 2020 - 5 Apr 2020**

**Superheroes** Stay Home Hack - first remote hackathon  
Technologies used: Miro | Figma | Adobe Illustrator

With a team of UX designers we created a platform that enables meaningful connections and professional resources for job seekers. I personally created the branding for our app proposal, worked on the wireframing, and executed interviews for research and data gathering.

**Feb 2020**

**Letter-Jumble** ABC learning made fun  
Technologies used: ReactJS | react-sortable-hoc | Adobe Illustrator

[github.com/LillianLuzinsky/letter-jumble](https://github.com/LillianLuzinsky/letter-jumble)

[letter-jumble.herokuapp.com](https://letter-jumble.herokuapp.com)

The main purpose of my app is to help parents teach the alphabet to their young children, while spending quality time together. My niece was able to learn the entire alphabet in only 2 days by using this app.

**Dec 2019**

**Sweets To Go**

Dessert Ordering app

Technologies used: ReactJS | React Styled Components | CSS

[github.com/LillianLuzinsky/sweets-to-go](https://github.com/LillianLuzinsky/sweets-to-go)

[lillianluzinsky.github.io/sweets-to-go](https://lillianluzinsky.github.io/sweets-to-go)

This was a group project with the aim to produce a full stack fun food ordering app. I was able to design and develop the front end.

**Oct 2019**

**Gracias**

Gratitude app

Technologies used: Ruby on Rails | HTML | CSS | PostgreSQL

[github.com/LillianLuzinsky/gracias2](https://github.com/LillianLuzinsky/gracias2)

[gracias3.herokuapp.com](https://gracias3.herokuapp.com)

This is a full stack app where I learned how to create a database and how to create CRUD functionality with Ruby on Rails.

**Sept 2019**

**Tic Tac Yum**

Technologies used: HTML | CSS | JavaScript | JQuery

[github.com/LillianLuzinsky/tictacyum](https://github.com/LillianLuzinsky/tictacyum)

[lillianluzinsky.github.io/tictacyum](https://lillianluzinsky.github.io/tictacyum)
